

Request for a support to scientific activities with MaiMoSiNE
Send to : maimosine-appel@imag.fr

The goal of this tendering is to support scientific activities organised by research teams in the Grenoble area and in connection to modeling and/or high performance computing.

In the evaluation process, emphasis will be placed on the interdisciplinary aspect of the project, and potential cooperation with industries, in particular SMEs and SMIs. While not mandatory, this aspects will be very much welcomed.

The support offered are
organizational (rooms' booling, meals, communication etc.).
financial (depending on whatever resources are available)
